

Material Safety Data Sheet

Issue Date: 9th October, 2009

Approved by Megazyme International Ireland Ltd.

Product Name: Arabinan Assay Kit**COMPANY DETAILS:**

Company Name	Megazyme International Ireland Ltd.
Address	Bray Business Park, Southern Cross Road, Bray, Co. Wicklow, Ireland.
Emergency Telephone	+353-1-2861220
Tel/Fax	Tel: +353-1-2861220/Fax: +353-1-2861264
Other Information	The information and recommendations contained herein are to the best of our knowledge reliable. However, nothing herein is to be construed as a warranty or representation in respect of safety in use, suitability efficiency or otherwise, including freedom from patent infringements. Users should make their own tests for their particular purpose. We cannot accept any liability for any loss, damage or infringement arising from the use of the information or recommendations contained herein.

IDENTIFICATION:

Product Code	K-ARAB
Product Name	Arabinan Assay Kit
Proper Shipping Name	as above
Other Names	None Listed
UN Number	None Allocated
DG Class	None Allocated
Packing Group	None Allocated
Hazchem Code	None Allocated
Poisons Schedule	Not Scheduled

PHYSICAL DATA:

Appearance	Six glass vials plus a chromatography column.
Specific Gravity	Not applicable
Solubility in Water	Most components readily soluble.

OTHER PROPERTIES:

pH Value	neutral
Odour	none
Form	Powders and liquid.
Stability	stable in a refrigerator for ten or more years

INGREDIENTS:

Ingredients	Name	CAS	Proportion
Tri/HCl buffer			1 vial (glass)
NAD			1 vial (glass)
Arabinofuranosidase/ <i>endo</i> -Arabinanase			1 vial (glass)
β -Galactose Dehydrogenase			1 vial (glass)
L-Arabinose standard solution			1 vial (glass)
Pear juice concentrate			1 vial (glass)
Chromatography column			1 small column (plastic)

Material Safety Data Sheet

Issue Date: 9th October, 2009

Approved by Megazyme International Ireland Ltd.

Product Name: Arabinan Assay Kit**HEALTH HAZARD INFORMATION****HEALTH EFFECTS**

Acute - Swallowed	Concanavelin A is poisonous.
Acute - Eye	Eye irritant
Acute - Skin	Prolonged skin contact will cause skin irritation.
Acute - Inhaled	Inhalation of dust will irritate the respiratory tract
Chronic	Long term exposure to dusts can cause respiratory irritation and coughing. An allergic reaction is possible with asthmatics.

FIRST AID

Swallowed	Drink plenty of water. Never give anything by mouth to an unconscious person.
Eye	Flush eyes with copious amount of water. If irritation occurs, seek medical advice.
Skin	Flush with water. If irritation occurs, obtain medical attention.
Inhaled	Remove to fresh air. If discomfort occurs, seek medical attention.

Advice to Doctor**Other Health Hazard Information****PRECAUTIONS FOR USE****Personal Protection**

Respirator Type (AS 1716)	Respirator approved for solid and liquid particulates, including dusts and mists, e.g. 3M 8810 mask or respirator with P3 filter or equivalents.
Eye Protection	Splash goggles or safety glasses.
Glove Type	Rubber or vinyl gloves.
Clothing	Lab Coat or Overalls
Other Information	Avoid unnecessary breathing of dust. Handle in accordance with good occupational hygiene and safety practices.

Flammability	non flammable
---------------------	---------------

SAFE HANDLING INFORMATION**Storage and Transport**

Storage Precautions	Store in a cool place. Stable in a refrigerator for at least 10 years.
----------------------------	--

Material Safety Data Sheet

Issue Date: 9th October, 2009

Approved by Megazyme International Ireland Ltd.

Product Name: Arabinan Assay Kit

Handling Powdered enzymes should be handled with care and under precautions to avoid inhalation of dust. Airborne dust or aerosols can develop during spillage, material transfers or vigorous stirring of solutions. Any operation which might create dust or aerosol should take place in areas that are provided with adequate exhaust or other forms of mechanical control systems. It is important to avoid direct contact with skin. Operations which may cause spillage or splashing must be avoided. Rubbing of the face or eyes should be avoided when wearing protective gloves that have been in contact with enzyme.

Proper Shipping Name None Allocated

Spills and Disposal

Spills and Disposal Spillages of powdered enzymes should be dealt with immediately. Remove large spillage by vacuum with a high efficiency filter. Flush remainder with plenty of water. Avoid splashing. Provide sufficient ventilation. Wash all contaminated clothing.

Disposal Sanitation landfill or incineration in accordance with local, state and federal regulations.

Fire/Explosion Hazard

Fire Fighting Procedure For fires involving this material, do not enter any enclosed or confined fire space without proper equipment such as breathing apparatus.

Extinguishing Media Water, Foam

Hazchem Code None Allocated

OTHER INFORMATION

Risk Statement R42 May cause sensitisation by inhalation.

Safety Statement S23 Do not breathe gas/fumes/spray.

Hazard Category Harmful.
