

Formic Acid Assay Kit Information Sheet

Company Name: Megazyme International Ireland
Address: Bray Business Park,
 Bray, Co. Wicklow, Ireland.
Contact: Dr. Barry McCleary, PhD, DScAgr
Tel: +353-1-2861220
Fax: +353-1-2861264
E-mail: cs@megazyme.com

Product Name : Formic Acid Assay Kit
Catalogue Number: K-FORM

This kit is for laboratory use only. Not for drug, household or other uses.

This product is a kit which consists of several independently packaged components. One or more of these components includes a substance or preparation that is subject to classification according to 1272/2008 and 1999/45/EC. An SDS for each of these components is included. **Please do not separate any component SDS from this cover page.**

This kit should be handled in accordance with good laboratory practices and appropriate personal protective equipment should be used. For more information refer to the K-FORM booklet.

General appearance: This kit contains five glass vials.
Storage: The contents of this kit are stable as specified on the individual containers when stored under the recommended storage conditions.

**The hazards identified with this kit are those associated with the following components.
 For additional information, please refer to the included individual material safety data sheet(s).
 For more information refer to the K-FORM booklet.**

Contents:

Name	Description	Classification
Bottle 2	Powder containing :- Pyrazole NAD ⁺	Acute Tox. 4; Skin Irrit. 2; Eye Irrit. 2; STOT SE 3; H302, H315, H319, H335 Xn, R22 - R36/37/38 - R52
*Contains sodium azide (0.02% w/v) as a preservative. Contact with acids may form toxic gases.		

No substance or preparation included in the following kit components is subject to classification according to 1272/2008 and 1999/45/EC and therefore the requirements of 453/2010 do not apply. For more information refer to the K-FORM booklet.

Name	Description	Classification
Bottle 1	Potassium phosphate buffer (freeze dried powder).	pH 7.6, two bottles supplied
Bottle 3*	Formate dehydrogenase	1.4 mL
Bottle 4	Sodium formate	~2 g
*Contains sodium azide (0.02% w/v) as a preservative. Contact with acids may form toxic gases.		

THE FOLLOWING INFORMATION IS GIVEN AS GENERAL ADVICE

As a general rule, in cases of accident, if you feel unwell when using this product, if in doubt, or if any symptoms persist, seek medical advice. Show the label where possible.

SAFE HANDLING

- Handle according to good hygiene, laboratory and safety practices.
- Use personal protective equipment that is clean and has been properly maintained, including: – Approved safety glasses with side shields, protective gloves (e.g. nitrile) and suitable laboratory clothing.
- Use only in areas with adequate ventilation, keep away from heat and sources of ignition. Avoid ingesting, breathing dust or vapours, contact with eyes, skin and clothing.
- Spillages should be cleaned up immediately (avoid raising dust or aerosol) and placed in a suitable container for disposal. Clean area using detergent and water only.

FIRST AID

Inhalation	Move to fresh air. If breathing becomes difficult immediately seek medical advice.
Eye contact	Remove contact lenses if fitted and easy to do. Flush eyes with plenty of water for at least 15 minutes. Seek medical advice.
Skin contact	Immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Wash clothing and clean shoes before re-use. Seek medical advice.
Ingestion	If person is conscious immediately flush mouth with plenty of water. Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Seek medical advice.

FIRE-FIGHTING MEASURES

In case of fire, toxic and irritant fumes (nitrogen oxides, carbon monoxide, carbon dioxide) may be produced. Use dry chemical powder, water spray, carbon dioxide or foam to extinguish fire.

FURTHER INFORMATION

Precautions

Since the user's working conditions are not known by us, the information supplied in this kit information sheet is based on our current level of knowledge. It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations. This kit must not be used for any purpose other than those specified.

Disclaimer

The information and recommendations contained herein are to the best of our knowledge reliable. However, Megazyme International Ireland does not guarantee the accuracy or completeness of the information and, as such, this document should be used as a guide only. In addition, nothing herein is to be construed as a warranty or representation in respect of safety in use, suitability and efficiency or otherwise, including freedom from patent infringements. Users should make their own tests for their particular purpose. We cannot accept any liability for any loss, damage or infringement arising from the use of the information or recommendations contained herein.

Safety Data Sheet

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

1.1 Product Identification:

Product Name: Pyrazole
Synonym: None
Catalogue Number: NA

1.2 Relevant identified uses of the product and uses advised against:

For laboratory use only. Not for drug, household or other uses.

1.3 Details of company:

Company Name: Megazyme International Ireland
Address: Bray Business Park,
 Bray, Co. Wicklow, Ireland.
Contact: Dr. Barry McCleary, PhD, DScAgr
Tel: +353-1-2861220
Fax: +353-1-2861264
E-mail: cs@megazyme.com

1.4 Emergency phone number:

+353-1-2861220 - Available from 9am to 5.30pm (local time Ireland).

2. HAZARD IDENTIFICATION

2.1 Classification of product:

Classification according to EC 1272/2008

Acute toxicity, Oral (Category 4)
 Skin irritation (Category 2)
 Eye irritation (Category 2)
 Specific target organ toxicity - single exposure (Category 3)

Classification according to EU Directives 67/548/EEC or 1999/45/EC

Harmful if swallowed. Irritating to eyes, respiratory system and skin. Harmful to aquatic organisms.

2.2 Labelling:

Labelling according EC 1272/2008 [CLP]

Pictogram

Signal Word

Warning

Hazard Statements

H302	Harmful if swallowed.
H315	Causes skin irritation.
H319	Causes serious eye irritation.
H335	May cause respiratory irritation.

Precautionary Statements

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
 P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Supplemental Hazard Statements

None

Labelling according to EU Directives 67/548/EEC, 1999/45/EC**Hazard Symbols****R-phrase**

R22 Harmful if swallowed.
 R36/37/38 Irritating to eyes, respiratory system and skin.
 R52 Harmful to aquatic organisms.

S-phrase

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
 S36/37 Wear suitable protective clothing and gloves.
 S61 Avoid release to the environment. Refer to special instructions/ Safety data sheets.

2.3 Other Hazards:

None

3. INFORMATION ON PRODUCT COMPONENTS**3.1 Components:**

Name	CAS #	EC #	Classification
Pyrazole	288-13-1	206-017-1	Acute Tox. 4; Skin Irrit. 2; Eye Irrit. 2; STOT SE 3; H302, H315, H319, H335 Xn, R22 - R36/37/38 - R52

Synonyms**3.2 Mixtures:****Composition:**

Name	CAS #	EC #	Classification

4. FIRST AID**4.1 General information:**

The information in this section is given as general advice. As a general rule seek medical advice in cases of accident, if you feel unwell when using this product, if in doubt, or if symptoms persist. Show the label where possible.

Inhalation Move to fresh air. If breathing becomes difficult immediately seek medical advice.
 Eye contact Remove contact lenses if fitted. Flush eyes with plenty of water for at least 15 minutes. Get medical advice.
 Skin contact Immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Wash clothing and clean shoes before re-use. Get medical advice.
 Ingestion If person is conscious immediately flush mouth with plenty of water. Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Get medical advice.

4.2 Most important symptoms and effects, both acute and delayed:

No data available.

4.3 Indication of any immediate medical attention and special treatment needed:

No data available.

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media:

Suitable means of extinction

Dry chemical powder, water spray, carbon dioxide or foam.

Unsuitable methods of extinction

Water jet.

5.2 Special hazards arising from the substance or mixture:

Burning may produce toxic and irritant fumes (nitrogen oxides, carbon monoxide, carbon dioxide).

5.3 Advice for fire-fighters:

Fire Fighting Procedure

Wear breathing apparatus and full protective clothing.

5.4 Further information:

None

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

Use personal protective equipment, avoid breathing dust or vapours, avoid contact with skin and eyes.

6.2 Environmental precautions:

Do not flush product into drains.

6.3 Methods and materials for containment and cleaning up:

All spillages should be dealt with immediately. Use personal protective equipment and sweep or mop up (avoid raising dust or aerosol) and place in a suitable container for disposal. Ventilate area and carefully wash any contaminated surfaces using detergent and water, do not use solvents. Wash all contaminated clothing.

6.4 Reference to other sections:

For disposal see section 13.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling:

Handle according to good hygiene, laboratory and safety practices. Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Use only in areas with adequate ventilation. Keep away from heat and sources of ignition.

7.2 Conditions for safe storage, including any incompatibilities:

Stable as specified on the individual container when stored under the recommended storage conditions.

7.3 Specific end uses:

No data available.

8. EXPOSURE CONTROLS /PERSONAL PROTECTION

8.1 Control parameters:

Occupational exposure limits

No data available.

8.2 Exposure Controls:

Engineering measures

Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

Use personal protective equipment that is clean and has been properly maintained. Store personal protective equipment in a clean place, away from the work area. Never eat, drink or smoke during use. Remove and wash contaminated clothing before reusing.

Eye / face protection

Avoid contact with eyes.

Wear safety glasses with side shields conforming to standard EN 166 - prescription glasses are not considered as protection.

Provide eyewash stations in facilities where the product is handled constantly.

Hand protection

Use suitable protective gloves which conform to standard EN 374.

Body protection

Avoid contact with skin.

Wear suitable laboratory coat or any other protective clothing designed to minimise skin contact. All parts of the body that contact the product must be washed with soap and water.

Respiratory protection

Avoid breathing dust, vapours or aerosols.

A protective dust mask which meets the EN 143 standard is advisable to avoid breathing particulates when a powdered form of the product is being handled.

Use an approved respirator when aerosol, vapour or dust is generated.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

General information

Appearance	Crystalline solid
Solubility	No data available.
pH	No data available.
Melting point	67 – 70°C

10. STABILITY AND REACTIVITY

10.1 Reactivity:

No data available.

10.2 Chemical stability:

This product is stable when stored under the recommended handling and storage conditions.

10.3 Possibility of hazardous reactions:

No data available.

10.4 Conditions to avoid:

No data available.

10.5 Incompatible materials:

Strong oxidising agents, strong acids.

10.6 Hazardous decomposition products:

May produce toxic and irritant fumes (nitrogen oxides, carbon monoxide, carbon dioxide) on burning.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects:

To the best of our knowledge, the chemical, physical and toxicological properties of this product have not been fully investigated.

Mixture

No data available for the mixture.

Acute toxicity

LD50 Oral 1.01 mg/kg (rat).

May induce Coma.

Hepatotoxic.

Skin corrosion/skin irritation

No data available.

Serious damage to eyes/eye irritation

May cause irritation on contact with eyes.

Respiratory or skin sensitisation

No data available.

Reproductive toxicity

Oral (rat) - Effects on Fertility: Post-implantation mortality (e.g. dead and/or resorbed implants per total number of implants).

Developmental Toxicity

Intraperitoneal (mouse) - Effects on Embryo or Foetus including stunted growth and death.

Oral (rat) – specific development abnormalities to eye, ear and urogenital system.

Specific target organ toxicity - single exposure

May cause respiratory irritation on inhalation.

POTENTIAL HEALTH EFFECTS

Inhalation	May be harmful if inhaled. Causes respiratory tract irritation.
Ingestion	Harmful if swallowed.
Skin	May be harmful if absorbed through skin. Causes skin irritation.
Eyes	Causes eye irritation.

Signs and Symptoms of Exposure

Teratogenic in rats, resulting in a high incidence of ocular and urinary bladder abnormalities. Rats fed pyrazole for 24 days showed, hyperbilirubinaemia, retarded growth, hypoglycemia, mitochondrial dysfunction and increased liver weight. Rats dying after lethal doses (6-11 days) showed extensive centrolobular necrosis with inflammatory reactions in the parenchyma and fatty changes in surviving cells.

Additional Information

RTECS: UQ4900000

12. ECOLOGICAL INFORMATION

12.1 Toxicity:

Toxicity to fish

LC50 - *Lepomis macrochirus* (Bluegill) 0.66 – 0.111 g/L.

Toxicity to daphnia and other aquatic invertebrates

EC50 - *Daphnia magna* (Water flea) 24 - 60 mg/L.

12.2 Persistence and degradability:

No data available.

12.3 Bioaccumulative potential:

No data available.

12.4 Mobility in soil:

No data available.

12.5 Results of PBT and vPvB assessment:

No data available.

12.6 Other adverse effects:

No data available.

13. DISPOSAL CONSIDERATIONS

Unused product and packaging may be disposed of in approved landfill sites, incineration or other method in accordance with local, state and federal regulations.

14. TRANSPORT INFORMATION

RID/ADR Not dangerous goods.

IMDG/IMO Not dangerous goods.

ICAO/IATA Not dangerous goods.

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the product:

No data available.

15.2 Chemical safety assessment:

No data available.

16. FURTHER INFORMATION

Precautions

Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge. It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.

This product must not be used for any other uses than those specified in section 1.
