

Material Safety Data Sheet

Issue Date: 9th October, 2009

Approved by Megazyme International Ireland Ltd.

Product Name: Beta-Glucanase (Malt and Microbial) Assay Kit**COMPANY DETAILS:**

Company Name	Megazyme International Ireland Ltd.
Address	Bray Business Park, Southern Cross Road, Bray, Co. Wicklow, Ireland.
Emergency Telephone	+353-1-2861220
Tel/Fax	Tel: +353-1-2861220/Fax: +353-1-2861264
Other Information	The information and recommendations contained herein are to the best of our knowledge reliable. However, nothing herein is to be construed as a warranty or representation in respect of safety in use, suitability efficiency or otherwise, including freedom from patent infringements. Users should make their own tests for their particular purpose. We cannot accept any liability for any loss, damage or infringement arising from the use of the information or recommendations contained herein.

IDENTIFICATION:

Product Code	K-MBGL
Product Name	Beta-Glucanase (Malt and Microbial) Assay Kit
Proper Shipping Name	as above
Other Names	None Listed
UN Number	None Allocated
DG Class	None Allocated
Packing Group	None Allocated
Hazchem Code	None Allocated
Poisons Schedule	Not Scheduled

PHYSICAL DATA:

Appearance	Three glass vials, one plastic vial and one polypropylene vial.
Specific Gravity	Not applicable
Solubility in Water	Most components readily soluble.

OTHER PROPERTIES:

pH Value	neutral
Odour	none
Form	Powder and liquids.
Stability	stable in a refrigerator for ten or more years

INGREDIENTS:

Ingredients	Name	CAS	Proportion
Azo-Barley Glucan			2 vials (glass)
Buffer solution			2 vials (polypropylene)
Malt Control Flour			1 vial (plastic)

Product Name: Beta-Glucanase (Malt and Microbial) Assay Kit

HEALTH HAZARD INFORMATION

HEALTH EFFECTS

Acute - Swallowed	Ingestion may irritate the gastro-intestinal tract.
Acute - Eye	Eye irritant
Acute - Skin	Prolonged skin contact will cause skin irritation.
Acute - Inhaled	Inhalation of dust will irritate the respiratory tract
Chronic	Long term exposure to dusts can cause respiratory irritation and coughing. An allergic reaction is possible with asthmatics.

FIRST AID

Swallowed	Drink plenty of water. Never give anything by mouth to an unconscious person.
Eye	Flush eyes with copious amount of water. If irritation occurs, seek medical advice.
Skin	Flush with water. If irritation occurs, obtain medical attention.
Inhaled	Remove to fresh air. If discomfort occurs, seek medical attention.

Advice to Doctor

Other Health Hazard Information

PRECAUTIONS FOR USE

Personal Protection

Respirator Type (AS 1716)	Respirator approved for solid and liquid particulates, including dusts and mists, e.g. 3M 8810 mask or respirator with P3 filter or equivalents.
Eye Protection	Splash goggles or safety glasses.
Glove Type	Rubber or vinyl gloves.
Clothing	Lab Coat or Overalls
Other Information	Avoid unnecessary breathing of dust. Handle in accordance with good occupational hygiene and safety practices.

Flammability	non flammable
---------------------	---------------

SAFE HANDLING INFORMATION

Storage and Transport

Storage Precautions	Store in a cool place. Stable in a refrigerator for at least 10 years.
----------------------------	--

Material Safety Data Sheet

Issue Date: 9th October, 2009

Approved by Megazyme International Ireland Ltd.

Product Name: **Beta-Glucanase (Malt and Microbial) Assay Kit**

Handling The enclosed buffer and Azo-Barley Glucan solutions contain sodium azide as preservative (0.02%). Sodium azide is a poisonous chemical. Please refer to separate sheets on the properties of this chemical. It is important to avoid direct contact with skin. Operations which may cause spillage or splashing must be avoided. Rubbing of the face or eyes should be avoided when wearing protective gloves that have been in contact with enzyme or solutions containing sodium azide.

Proper Shipping Name None Allocated

Spills and Disposal

Spills and Disposal Spillages of substrate or concentrated buffer should be dealt with immediately. Remove large spillage with an absorbent cloth. Flush remainder with plenty of water. Avoid splashing. Provide sufficient ventilation. Wash all contaminated clothing.

Disposal Sanitation landfill or incineration in accordance with local, state and federal regulations.

Fire/Explosion Hazard

Fire Fighting Procedure For fires involving this material, do not enter any enclosed or confined fire space without proper equipment such as breathing apparatus.

Extinguishing Media Water, Foam

Hazchem Code None Allocated

OTHER INFORMATION

Risk Statement Sodium azide is poisonous and must be handled with care.

Safety Statement S23 Do not breathe gas/fumes/spray.

Hazard Category Harmful.
